WHO WE ARE

We are part of the large majority of Canadian seniors alarmed by the climate crisis. One in four Canadians are seniors. We have outsized political, economic, and social power. And we vote!

Our goal is to build a Canada-wide community of seniors to create a liveable future. We have a major role to play and we have motive, commitment, and opportunity.

Along with our children and grandchildren, we face a climate emergency. We need faster and better climate action. Later Is Too Late!

OUR ACTION PLAN

We're a network of senior volunteers begun in 2024. Twice a year we mobilize Canadian seniors to publicly show their support for climate action. 10,000 seniors and their friends in almost 100 communities across the country have participated in a wide range of locally planned activities.

OUR MAIN MESSAGES

- We're in a climate emergency. We need to act now! Later Is Too Late!
- Climate change is affecting our health: extreme heat, wildfires, floods, storms, droughts.
- Not dealing with climate change is linked to the increased cost of living. Think of rising insurance, fuel and utility costs.
- Polluting companies must pay their fair share.
- We need to speed up the transition to renewable power and clean energy. That will create more good jobs.
- Action on climate must be fair to everyone, old and young, rich and poor, newcomer or here for millennia. We're all in this together.
- Governments at all levels need to hear from us and see us gathering together.

HOW TO GET INVOLVED

- Subscribe to our mailing list to become a supporter. Learn more through our emails, webinars and website.
- Invite your organization to participate in a Seniors For Climate action. Church, community, and labour groups have lots of seniors who care about climate. Everyone can be an organizer. We can help you.

- Tell us about your action and how it went. We'll share it across the country.

Join this project of six climate organizations led by seniors: Suzuki Elders, Climate Action for Lifelong Learners (CALL), Grandmothers Act to Save the Planet (GASP), Climate Legacy, For Our Grandchildren (4RG), and Seniors for Climate Action Now! (SCAN!).
